building global friendship

## Who We Are

Formerly Childrens' International Summer Villages, CISV is a volunteer organization with representation in over 45 countries worldwide. The Victoria chapter was founded in 1965 and has provided countless life changing opportunities for youth in our community. CISV's network of volunteers provides unique educational programmes at the local level as well as at international camps that bring together young people from different cultures. These opportunities foster a respect for cultural differences, help identify common values and develop self awareness. CISV empowers each participant to incorporate these values into their lives as they become global citizens.

**"By bringing young people together in a spirit of tolerance and understanding, we help to lay the foundation for a peaceful tomorrow."**

Kofi Annan, UN Secretary General, CISV Seoul Symposium
